ABOUT ME

Dynamic and solution-oriented, I leverage my experience in full-stack development and my ability to solve complex problems quickly to design high-performance and intuitive applications. A strong communicator, rigorous, and motivated by challenges, I am ready to fully commit myself and contribute to your team.

TECHNICAL SKILLS

- **Front-end** : React.js, Next.js
- **API** : Express.js, Laravel
- **Mobile** : React Native, Flutter
- **Database** : MySQL, Oracle
- **Data Mining** : Pandas, Power BI
- **UI/UX Design** : Figma
- **CMS** : WordPress (Elementor)
- **Tools** : Git, Github, Vercel, Docker

SOFT SKILLS

Adaptabilité, travail d'équipe, créativité, gestion du temps, communication.

CERTIFICATIONS

- **Institut Français** :
 - TCF | B2 (Overall score : 473)
- **Cisco Networking Academy** :
 - English For IT 1 & 2
 - JavaScript Essentials 1 & 2
 - Python Essentials 1 & 2

LANGUAGES

- Arabic — Native Language
- French — Full Professional Proficiency
- English — Good Working Proficiency

INTERETS

- Football and team sports
- Music and audio culture
- Fitness, strength training, and well-being
- Travel and cultural discovery

EDUCATION

- **SUP2I – Higher School of Engineering and Innovation**
2025–2026 | Bachelor's Degree in Computer Development
- **IFIAG – Institute of Applied Computer Science and Management Training**
2023–2025 | Specialized Technician Diploma in Computer Development
- **El Baroudi High School**
2021–2022 | High School Diploma in Physical Sciences – BIOF

PROFESSIONAL EXPERIENCE

- **Collaboration Agreement – Alvon Digital Group**
2026 - Present | Development and maintenance of mobile applications, technical architecture design, performance optimization, and participation in strategic product decisions.
- **Final-Year Internship – Alvon Digital Group**
2026 - 2 months | Designed and developed a TCF preparation platform (MonPassTCF) featuring a full-stack architecture using Express.js, React Native, and Next.js. Integrated AI using Groq, developed real-time social features and gamification systems, and built an administration dashboard.
- **Internship – Adam Adventure Tours & Tourism**
2025 - 1 month | Designed and fully developed a corporate website, including requirements analysis, technology selection, graphic design, Next.js development, Vercel deployment, and ongoing maintenance.
- **Final-Year Internship – MB Way**
2025 - 2 months | Worked as a Backend Developer for the QuickStay application using Laravel. Also created the visual identity, including the logo and complete brand guidelines.

PROJECTS

- **MonPassTCF** | Development of an AI-powered mobile application for TCF preparation using React Native, Next.js, and Express.js, developed during my internship at Alvon Digital Group.
- **Breezoria** | Development of a conversion-focused e-commerce website using Next.js and Tailwind CSS.
- **ZacaStore** | Development of an online store featuring a product catalog and shopping cart using Next.js and Tailwind CSS.
- **AATT** | Development of a corporate website for Adam Adventure Tours using Next.js, React, SEO, and Vercel, completed during my internship at Adam Adventure Tours & Tourism.
- **Café Dupond** | Development of a corporate website for Café Dupond using React, Vite, and Tailwind CSS, deployed on Vercel.
